

EASYSPRAY

P K S

SPRAY WEEDS WHILE YOU SWEEP!

The safest and most effective weed control

1. Ideal for overall spray programmes but especially to achieve higher standards (e.g. for Britain in Bloom) to complement existing weed control programmes, or as a 'spot' tidy up operation between main applications of herbicide.
2. The herbicide is applied by automatically calibrated Controlled Droplet Application (CDA).
3. With the EASY-SPRAY® unit from Amenity Land Solutions, there is very low risk of environmental hazards such as spray drift and over-dosing.
4. Public attention is not drawn to the spraying operation, as sweeping is usually taking place at the same time.
5. Bayer Environmental Science herbicide CDA Vanquish Biactive used in the CDA Pavement Sprayer is Non-irritant and environmentally the safest available under COSHH regulations.

SPRAYCDA

EXPERTISE IN LOW VOLUME SPRAYING

Machine Servicing, Herbicide, CDA Cleaner, Spare Parts:
